- Gold plated, spring loaded terminals
- Elaborate crossover networks
- Magnetically attached, paintable grilles

EWSLA63

(H & W)	26 1/2" (673mm) x 4 7/8" (121mm)
(C) Cut out Dimensions	25 3/4" (654mm) x 4" (102mm)
(M) Mounting Depth	2 7/8" (73mm)

OBJECTIVE

The LA63 is a line-array in-wall speaker system that is practically invisible. Not only does it blend with most décor, The LA63 requires less power from your amplifier to deliver massive blends of sound quality and SPL. This is possible due to the line array design. Line array focuses the music on the sitting area rather than the whole room. By directing sound using this technology, the user will need less input power to deliver high sound pressure level to the listener. By reducing the input power, the walls reflections are also reduced.

SPECIFICATIONS

EWSLA63

Power Handling	350 Watts Max
Frequency Response	40Hz-20kHz
Mid-Range	Six 3" low mass poly cone midbass
Tweeter	One 1" silk dome NEO tweeters
