

TitanTigris

Product Release

Earthquake Sound is proud to present the new Tigris tower speakers, the big brothers of the Telesto towers. Each tower features one 1" silk dome NEO tweeter, one 2" ball loaded silk dome tweeter, and dual 8" Kevlar long excursion midbass woofers all enclosed in an egg-shaped speaker enclosure to enable the most transparent sound reproduction with minimal reflections. Though they share the Telestos' sleek style, they are more powerful and thicker in stature.

Available in black piano lacquer finish, the Tigris brings elegance to your home theater system without compromising the quality of sound performance.

Tigris Driver Units:

T1: 1" silk dome, NEO, super tweeter.
Frequency range: 3KHz-35KHz.
Fo=2.1KHz.

M3: 2" silk dome, ball loaded, super midrange.
Frequency range: 800Hz-10KHz.
Fo=600Hz.

K8: 8" Kevlar woofers, Long Excursion.
Frequency range: 30Hz-2KHz.
Fo=30Hz.

Tigris Specifications

Frequency:	25Hz-40kHz
Sensitivity:	89dB+/-3dB
